GENERAL DETAILS AND BENEFITS

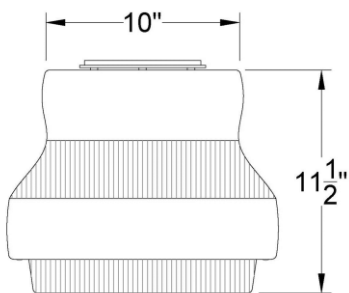

The PX RGB fixture is a parking garage fixture designed to provide ambient light in addition to colored light with the purpose of visually conveying empty parking areas.

Integrated wireless control is capable of receiving signals from a wide variety of third party devices.

The fixture housing is made of die cast aluminum with a white powder coat finish. The lens is built from high strength impact and UV resistant acrylic.

The PX RGB fixture can be suspended by a pendant stem or surface mounted given different applications.

For more information on controls packages contact customer service.
